# Introduction

This directory provides a list of the plan's network providers. You do not need a referral to see an in or out-of-network provider. You can see any provider (in or out-of-network) at the same cost-share, as long as they accept Medicare and the plan. Your copays or coinsurance will be the same. To get detailed information about your health care coverage, please see your Evidence of Coverage.

## **The difference between network and out-of-network providers**

Network providers are providers that your plan works with to provide your care. Out-of-network providers are providers that we currently are not contracted with. This directory contains a listing of providers who are part of the UnitedHealthcare provider network.

As a member of this plan, you may receive services from providers who are not part of the UnitedHealthcare network. You do not need a referral to receive services from in or out-of-network providers. However, the out-of-network provider you use must accept Medicare and the plan. We cannot pay a provider who has opted out of, been excluded or precluded from Medicare. If you receive services from a provider that doesn't accept Medicare, you will be responsible for the full cost of the services. Check with your provider before receiving services to confirm that they accept Medicare.

If you receive services from a provider who does not accept your plan, but does accept Medicare, the provider may bill you directly. If this occurs, you can submit your bills and proof of payment to UnitedHealthcare for the Medicare reimbursement rate of any covered services.

The network providers listed in this directory have agreed to provide you with your health care services. You can see a network specialist without getting a referral. If you have been going to one network provider, you are not required to continue going to that same provider.

## **What is a primary care provider?**

A primary care provider (PCP) is the doctor who provides most of your care.

Your PCP can help you:

- Make smart lifestyle choices to improve and maintain your health
- Get preventive care and health screenings
- Better understand your medical conditions
- Coordinate any specialist care to help avoid duplicate and expensive tests
- Manage your prescriptions and identify possible harmful interactions

## **Choose a primary care provider**

You are not required to choose a primary care provider (PCP) in this plan, but it is recommended to have a relationship with a PCP for your ongoing medical care. You may choose one of our in-network providers or an out-of-network provider to be your PCP.

Your PCP plays an important role in managing your health care. If you need help finding a PCP, call Customer Service toll-free at the number on the cover.

## If you need emergency or urgently needed services

A **medical emergency** is when you believe that you have symptoms that require immediate medical care to prevent death, loss of a limb, or loss of function of a limb. The medical symptoms may be an illness, injury, severe pain, or a medical condition that is quickly getting worse.

If you have a medical emergency, get help as quickly as possible. Call **911** or go to the nearest emergency room, hospital or urgent care center. Emergency care can always be obtained in or out of the service area from the nearest available provider. Emergency services are also covered whether a provider is in or out-of-network.

**Urgently needed services** are a non-emergency, unforeseen medical illness, injuries, or conditions that requires immediate medical care. When out of the service area, urgent care may be obtained from the first available provider whether the provider is in our network or not. In addition, when out of the service area, you can get dialysis treatment from any qualified dialysis provider.

Out-of-network/non-contracted providers are under no obligation to treat plan members, except in emergency situations. Please call Customer Service or see your Evidence of Coverage for more information, including the cost-sharing that applies to out-of-network services.

## If you get a bill

There may be times when you get a bill from a provider for the full cost of medical care you have received. If you get a bill for the full amount, contact us. In most cases, you should send this bill to us instead of paying it. We will determine if these services should be covered. If we decide the services should be covered, we will pay the provider the plan's portion directly. Please see your Evidence of Coverage for more information.

## Virtual visits

Virtual visits let you choose to see and speak to a health professional using your computer or a mobile device. To access a virtual medical or behavioral health network provider, use your computer, tablet or smartphone and visit <https://member.teladoc.com/uhcretirees> (virtual medical only), [amwell.com](https://amwell.com) or [doctorondemand.com](https://doctorondemand.com) 24 hours a day, 7 days a week.

Not all medical conditions can be treated through virtual visits. The virtual provider will identify if you need to see an in-person doctor for treatment.

Note: Benefits vary by plan/area. Limitations and exclusions apply. Virtual visits may require video-enabled smartphone or other device. Not for use in emergencies.

## Accessing your behavioral health benefits

To access your behavioral health benefits, call the behavioral health number on the back of your UnitedHealthcare member ID card. When you call, a representative will get basic information about you and your situation. Depending on the help you need, a clinician may talk with you and recommend a provider and a treatment plan. Your personal information will be kept strictly confidential.

## Organ transplant services

Your plan has a nationwide network of facilities that perform organ transplants (including heart, lung, liver, intestine, kidney, bone marrow and/or pancreas). Solid organ transplants must be performed at a facility that is currently Medicare-approved for your specific type of transplant. The

## Introduction

plan's hospital network for organ transplant services is different than the network shown in the **Hospitals** section of this provider directory. Some hospitals in the plan's network for other medical services are not in the plan's network for transplant services. The complete list of Medicare-approved facilities in your plan's network may change throughout the year. For information on network facilities for transplant services, please call the toll-free Customer Service number on the cover of this directory or refer to the transplant vendor website information listed in the **National Vendors** section of this provider directory.

## Wait times for primary care and behavioral health

We must provide you with access to primary care and behavioral health services within the following timeframes:

- Immediately for urgently needed services or an emergency.
- Within 7 days for services that are not an emergency or urgently needed, but you require medical attention.
- Within 30 days for routine and preventative care.

## What is the service area for your plan?

Our service area includes the 50 United States and the District of Columbia, Puerto Rico, the United States Virgin Islands, Guam, American Samoa, and the Northern Mariana Islands.

## How do you find network providers that serve your area?

Network providers that serve your area are listed in the following sections of this directory. To find a provider using this directory, turn to the Table of Contents and see where each section begins. Go to the section of the type of provider you are looking for. Once you are in that section, locate the city you live in. Under each city you will find a list of providers in alphabetical order.

If you have questions about your plan or require assistance in finding a provider, please call the toll-free Customer Service number on the cover of this directory, or visit us online.
